

Destination Space 2021 - We're going to the Moon!

- Mark Kirasich is the Deputy Associate Administrator for Advanced Exploration Systems within the Human Exploration and Operations Mission Directorate at NASA Headquarters in Washington, D.C.
- Mark is leading development for NASA's Artemis III Mission and future missions in the Artemis program. This includes a lunar-orbiting spaceship, the systems that will land astronauts on the Moon, and lunar surface systems for exploration.
- Mark will talk about the Artemis program, answering why we're going, what we'll do there, who is going, and what these missions will look like.
- Everyone participating in and watching these missions is a part of the Artemis generation... and that includes you!

Mark Kirasich

"We're going to the Moon!"

Tuesday, March 2, 2021

1:00 pm to 1:35 pm
